SELECTMEN'S REPORT

This past year has witnessed a new method of running our Town Government. For the first time in the memory of most, we have operated without a full time Selectman. This has resulted in your Board of Selectmen having to meet much more often than in the past. However, in this way, the responsibilities have been equally shared. We believe the net result has been good, particularly from the standpoint that three Selectmen have been equally acquainted with the problems and have shared equally in making the decisions relative thereto. Our job has been made much easier by the fact that we have had two very able assistants working full time in the Selectmen's office; namely, Mrs. Poore and Mrs. Wakefield. We have many persons who call at the office or phone the office daily on matters which do not require handling by your Selectmen. Such matters have been handled promptly and efficiently by these persons. Matters strictly for the Selectmen have been referred to the Board.

We would like to point out and emphasize the fact that Goffstown has grown tremendously in the past fifteen years and the natural result has been many increasing problems. We do not feel that your Town Government has kept pace with this growth in many ways. We need to face up to inadequacies that exist in our Road Building Program; such as the Goffstown Back Road, insufficient water and water pressure in the Pinardville section of our Town where additional building or expansion is impossible because of this problem. We have the problem of our two Dumps and the hand-

ling of same. Also, the problem and feasibility of how we should handle our trash, either by Contract Pickup or with Town Owned equipment. Our Sewer Systems have to be extended and a planned program to accomplish this is a must. None of these things can be accomplished without raising money to do so by increasing our taxes. In our Town that means for the most part our individual real-estate is pretty much our only source of income. We believe all are aware that we have very few business establishments, and the few that we do have do not materially affect our taxable income. Here again, we have reached a point where we must decide whether we wish to stay completely residential and as individual property owners raise the necessary monies to defray the cost of operating our Town, or take the necessary steps to interest Business Firms to locate in Goffstown.

We have had, and/or will have, in a few weeks several major changes in our Town Officials. First, our Town Clerk, Ralph Wakefield, resigned after six years of very capable service. Mr. Jenks retired from the Village Water Precinct after many years of dedicated service. Both of these men have been replaced by capable persons; namely, George Aimo, Town Clerk, and Charles Gutterson, Superintendent. Mr. Shirley, who has been our Road Agent for nearly thirty-three years, wishes to retire and will not be seeking re-election. No one should underestimate our loss in this regard and any replacement has some very large shoes to fill.

Our Highway Department is annually responsible for nearly fifty percent of our Town Budget, excluding of course, School and County Budgets. As you all know,

our Road Agent is an elected Official. Your Selectmen feel that this is the appropriate time to insert an Article in the Warrant, and have done so, asking that your Selectmen be given the right to appoint the Road Agent beginning in 1964. Under our present system, it is difficult for both the Road Agent and Selectmen to know what authority each has over the other. This authority, in our opinion, can not be two-fold.

This past year has seen our Sewer Commissioners given the job for which they were previously elected. As provided by Statute they have full authority over the care and maintenance of our Sewage Systems, including the Treatment Plant. Sewer extensions and entrances are within their province, as well as sidewalks. We believe they have done a good job within the limits of their Budget and for the short time in which they have had the opportunity to study the various problems.

This past year has also seen our Town taking a step forward in the handling of our Fire and Police Departments. The new combination building is, in our opinion, appealing to the eye as well as practical for the conducting of the business of these two Departments. This consolidation has resulted in a better communication system and has dissolved the archaic method of having the two Chiefs' homes used as a Dispatch Center. We now have constant twenty-four Fire and Police protection. This is, of course, costing the Taxpayers more money, but we know of no other solution.

We have been asked by the Municipal Court Judge to find more adequate quarters to serve as a Court Room. Court activity has increased greatly, and while

this need may not be immediate, we must soon give the subject our thought. All Town Officials should have been alert to this need when formulating plans for the new Fire and Police Station, but we were not, until too late. The present room in the Station is completely inadequate for a Court Room. First, it was not constructed with a Court Room in mind, and secondly, because we do feel that our volunteer Fire Department and Police Department Association are entitled to this added facility to properly conduct their business and various other functions. This does not mean that the Station is "off limits" to other residents of our Town, but we do feel that various Group Functions in Town should have only very limited use of the facilities of this room. The Library has been considered, but for various reasons we do not feel it feasible to use any part of the Library for a Court Room. Therefore, no further consideration is being given to this location for such a use. There are several other possibilities that are being explored and the results of our findings will be made known to the people when these plans have been formulated.

Your Selectmen have stayed within their Budget for 1962, in fact, the records will show a balance of some \$11,000.00. Our requested Budget for 1963 will show an increase of roughly \$24,000.00, or an 8% increase over 1962. The main items creating this increase are in the Fire and Police Departments, Town Poor and long term notes and interest to cover our payments on the new Fire and Police Building.

To properly keep pace with our times and our needs and in order to grow and prosper, we have many needs,

most of which will become imperative within the next few years. A sound planning program for all these needs has got to be done and it will be expensive to every individual. This is not intended to discourage the people of our Town, but to awaken every individual to the fact that it is "his" and "her" problem to help solve.

ARTICLE 11. Although the Budget Committee disapproved this Article, a motion was made, seconded and voted in the affirmative, that the Town raise and appropriate in addition to the budget the sum of Three Hundred and Fifty dollars (\$350.00) for the purpose of clearing the algae from that portion of the Piscataquog River known as Glen Lake and Kelley's Falls.

ARTICLE 12. This Article was placed on the Australian Ballot by request. Moderator Prugh ruled that such method of voting was invalid as per the following statements:

"In order not to be misunderstood relative to the propriety of this Article and the method of voting under it, I have put my remarks in writing for the benefit of the Clerk, this assembly, the press, or anyone else interested. Prior to this hour, I have not indicated to anyone how I would rule upon this question. I did not wish to influence anyone in the voting on the printed ballot.

"If the Article for adoption of this Act is inserted in the Warrant for the meeting, the statute says: 'If the majority of those present and voting at said meeting vote by ballot for its adoption, the law shall be in force'.

"With regard to rescinding such action, the statute goes on to read:

"The law shall remain in force until rescinded by a majority vote at a regular town meeting." "Regular Town Meeting" I construe to mean by vote in open meeting, not by printed ballot. This statute does not contemplate that either the adoption or the rescision

shall be by voting on the printed ballot. Action of this nature, in the absence of statutory provision to the contrary, is taken only in open meeting.

"Action to rescind the operation of the Municipal Budget Act should have been called for in the Warrant to be in open meeting, not by insertion on the printed ballot. It is, therefore, my opinion that the voting taken on this Article by marking on the printed ballot is null and void.

"This Article does not call for consideration in open meeting. It would be entirely unfair to all those who have already voted on the printed ballot to act upon this Article in open meeting. I, therefore, rule that no action can be taken on this Article at this meeting.

"This is not a matter of parliamentary procedure when the Moderator or the assembly has a choice of action. It is a matter of State law which cannot be changed by vote of this assembly."

ARTICLE 13. Voted to act favorably on this Article and accept Zan Lane.

ARTICLE 14. Voted to act favorably on this Article to accept and resurface Riverview Park Road approximately five (500') hundred feet westerly from Manchester Line.

ARTICLE 15. Voted to dismiss this Article as it is properly a matter governed by the Zoning Ordinance.

ARTICLE 16. Upon motion duly made and seconded, voted to adopt the provisions of this Article as far as the words "Town of Goffstown" in lines 8 and 9 of Warrant.

ARTICLE 17. Voted to accept the printed reports.

ARTICLE 18. No further business.

Meeting adjourned at 11:15 p. m.

REPORT OF THE BOARD OF TRUSTEES of the GOFFSTOWN PUBLIC LIBRARY --- 1962

This year your Trustees can report that long delayed repairs on the building have been completed, storm windows placed on the north room, the south room newly painted, brush and litter cleared from the rear of the building and twenty years accumulation of rubbish removed from the basement room, where a long needed Workshop for the librarians' use and meeting room for the Trustees has been established.

Through the efficiency of your librarian and the adoption of the State Aid plan, the Reference Library has been increased and drew praise from the representatives of the State Library Association. This coming year our aim is to bring the children's library up to standard.

Library week in April was observed with Open House, story telling hour for the children, a poster contest and used book sale.

Grateful acknowledgment is made for the Summer Incentive Reading Program, sponsored for the fifth year by Atty. and Mrs. David V. Prugh, for the Leon Pierce Memorial Table in the children's room, (a gift from organizations of the Town), books from the Shirley and Unity Clubs and for the Christmas decorating and summer landscaping of the library grounds by the Garden Club.

Your Trustees hope that in the near future the town will see fit to meet the recommended minimum standards of \$3.00 per capita. There was a general discussion also of possible plans for expansion whereby the Children's Room could be placed on the ground floor, with Elm Street entrance and an Adult — Silent Study and Reading Room could replace it in the north room upstairs. On the present budget the Library is open every afternoon Monday through Friday, from two thirty to five o'clock and on Monday and Wednesday evenings until eight-thirty.

Please come in and see our newly-cleared ground floor, our Trustees-Workshop Room, the Sorting-Storage area, and learn more of our plans for the future, especially those for 1963 when we shall be observing our 75th Anniversary.

F. ARTHUR BARTLETT,
MRS. ESTHER PAIGE, Secretary,
MRS. MARTHA DODGE, Financial Secretary,
MRS. DALLAS W. PRUGH,
GARDNER LAMSON,
DONOVAN STEVENS, Chairman.

REPORT OF LIBRARIAN

1962

Each year, more services are being offered by libraries to their communities. As towns grow, so do demands on libraries. This is true of our own Public Library. During the year 1962, the circulation has increased by 4,561 volumes, and there are 248 more registered borrowers. We need more books to meet this demand. Even though we do borrow many books from the State Library, these can be kept in town for one month only and those for which we have repeated requests should be a part of our own collection.

During this past year the cost of all books has greatly increased, so if we are to provide for the varied interests and the increased number of patrons, a substantial increase is needed in our book budget. How many realize the American Library Association average per capita cost of library service is estimated at \$3.00 minimum, yet Goffstown in 1961 provided \$.69½ per capita?

Could we grow just a little this year?

PREVENTING FOREST FIRES IS OUR RESPONSIBILITY

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545.00. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be placed cost another \$24,634.00. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2,200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control — pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to install in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had 12 fires.
We burned 3 $\frac{1}{4}$ acres.
Permits issued — 323.

CERTIFICATE

Grasmere, N. H., February 8, 1963.

This is to certify that I have this date examined the books, vouchers, bank statement and other financial records of Arthur E. Welch, Treasurer, Grasmere Village Water Precinct for the year ending December 31, 1962 and find them correctly cast and properly vouched.

CARL K. HARDY,
Auditor.

REPORT OF BARNARD PLAYGROUND TRUSTEES

The Barnard Playground took on a new look this year with the erection of fencing around the ball field, and special lighting at night to discourage vandalism.

The eight week summer program was conducted by Forrest Greenwood and Pamela Anslow. Attendance was above average and the innovation of arts and crafts was well received. The special events week with the awarding of prizes for attendance and skill at athletics was the highlight of the program.

The trustees made some repairs on the pond dam to make it available for ice skating and had a night light installed for this purpose.

Projects contemplated for the ensuing year include the completion of the ball park fence, new back stops for the tennis courts, repairing of the grandstand roof and plans for a basketball court.

Only through your continued cooperation can we best serve the interest of Goffstown.

Respectfully submitted,

HARRY J. ANSLOW,
Chairman.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Goffstown:

I am pleased to submit my first annual report relating to the Goffstown Schools to inform the School Board and the Citizens of the strengths and the critical needs of Goffstown in its educational endeavors.

The Goffstown schools have a total enrollment of 1,145 pupils in the schools as follows:

Goffstown High School

Grade 9	95
Grade 10	102
Grade 11	73
Grade 12	64

334

White School

Grade 7	87
Grade 8	89

TOTAL 510

Maple Avenue School

Grade 1	70
Grade 2	89
Grade 3	68

Grade 4	63

TOTAL 468

Grade 4	26
Grade 5	28

TOTAL 124

Grasmere School

Grade 1	15	Grade 3	8
Grade 2	0	Grade 4	20
			TOTAL		43

The anticipated fall of 1963 enrollment will find the elementary schools, Maple Avenue, Bartlett and White, filled to capacity with a possibility of one room available in the combined new and old buildings of Bartlett School.

Maple Avenue School has sixteen grade 1 through 6 classrooms and one combination seventh and eighth grade class maintained in the nurses' office. It is anticipated that in September, 1963 the school will house 3 first grades, 3 second grades, 3 third grades, 2 each of fourth and fifth grades and 3 sixth grades.

The modern well equipped addition to Bartlett School will relieve the elementary school housing problem in the 1963-64 school year.

The White School no longer has room for the entire seventh and eighth grades which share the home economics room, shop and gym with an already overcrowded high school population.

Goffstown High School was built in 1925 at which time 92 students were enrolled in the High School. The addition to Goffstown High School was erected in 1948 when there were 113 high school students. From 1948 to the present, the High School enrollment has increased to 330.

The following table is self-explanatory:

	1925 Year H. S. Was Built	1948 Year Addition Was Built	1962 Facilities Are Needed
Goffstown High School	92 students	113 students	330 students
Total Enrollment			
Grades 1 through 12	270 students	468 Students	1145 students
Population of Goffstown	2500	5638	7230

Goffstown High School with a maximum capacity of 280 students cannot continue to house a student body fast approaching 400 students.

The total school population as indicated in the above table, has increased from 270 students in Grades 1 through 12 in 1925 to 468 in 1948 and to 1,145 in 1962. This total is indicative of a continued overcrowded high school problem.

In addition to the problem of overcrowding, there is the inadequacy of the separate facilities within the existing building and the lack of certain facilities which are necessary in a modern educational plant.

Inadequate facilities include the following: sub-standard classrooms, science laboratories, study area, commercial area, storage areas, boys' and girls' locker rooms, and physical education facilities for both boys and girls.

Lack of certain facilities includes the following: inadequate number of classrooms, no language laboratory, planned library, audio-visual area, proper office space, music room, art room, or teachers' room.

There is a definite need for an adequate number of classrooms and specialized teaching areas which would provide the proper facilities for an enriched program of student study suited to today's needs of college-bound young men and women, and training areas for terminal students pursuing Commercial, Industrial Arts or Home Economics courses.

Goffstown High School lacks acreage that assures areas for athletic field development and suitable student, faculty and guest parking.

Quality education is not generally possible to attain in an overcrowded school, with inadequate teaching facilities and with the use of modern teaching techniques and the enrichment of courses curtailed by a limited physical plant.

Goffstown needs added facilities so that each boy and girl in town will have an opportunity to develop his potential to the limit of his ability. The future strength of Goffstown and America is in its well educated youth.

Staff

A qualified staff with a low annual turnover of personnel, is an assurance of the continuity of a sound educational program and a minimum of interruption of a coordinated educational effort, over the period of the pupils' enrollment in the Goffstown school system.

Goffstown is endeavoring to provide satisfactory facilities, adequate equipment and materials for teachers and pupils for effective educational opportunity and an attractive salary schedule to encourage the employment of and retention of capable and dedicated teachers. The school board, the budget committee, and the

citizens are to be commended for insisting on and providing for the securing and retaining of superior teachers for our schools.

Supervision

All schools will be under full time principals effective September 1963 to allow opportunity for supervision that will result in improved instruction. The principals, all named to their positions this year, Mr. Richard Vaughn at Goffstown High School, Mr. William Brendle at Maple Avenue and Mr. Leon Cote at Bartlett School, will have an opportunity to exert leadership to unify and coordinate the school programs based on teacher supervision, continual evaluation and curriculum development effecting changes as they evolve from a mutual effort on the part of the teachers, principals and the administration.

Guidance

Goffstown High School has the full time services of a professionally trained guidance director. The services provide an opportunity for every boy and girl to receive professional counselling relative to his course selection based upon his interests, needs and abilities and to benefit from professional advice regarding future academic and vocational pursuits.

In conclusion, I wish to express my appreciation for the many courtesies and excellent cooperation and encouragement extended to me by the school board, principals, teachers, pupils and citizens of Goffstown. Furthermore, for the invaluable aid given by Spiro Anastos, Teacher Consultant, Mrs. Ruth Henk, Mrs. Harold

Smith and Mrs. Clifford Martel, present and post office personnel.

I trust that our joint efforts in behalf of the educational welfare of the youth of Goffstown will maintain and improve the quality of the education in Goffstown.

Respectfully submitted,

ERNEST PELTONEN,
Superintendent of Schools.
